Inventory Query

POST API path:/b2b-overseas-api/v1/buyer/inventory/quantity/v2

Update Log

Date	Details
09/11/2025	New interface added
01/08/2026	Query is restricted to the products in Buyer's Saved Items List or products with stockpiled inventory.
01/10/2026	For DE/UK Self-arranged Shipping Buyers, querying inventory by warehouse is available.
09/10/2026	For US Drop Shipping Buyers, querying Sellers' inventory by warehouse is available. The value is returned via the sellerInventoryDistribution field.
10/22/2026	Querying shared inventory is supported. For details, see the totalSharedInventory and sharedInventory field descriptions.

Use Case

Query product's available inventory or Buyer-owned inventory on GIGAB2B by SKU. Product promotional inventory and storage fee are also available for query.
For US/DE/UK Self-arranged Shipping Buyers, querying inventory by warehouse is available.
Note: Only the products in Buyer's Saved Items List or products with stockpiled inventory can be accessed.

Rate Limiting Rule

10 requests per 10 seconds

Header Parameters

Parameter Name	Data Type	Required ?	Description	Default Value
Content-Type	string	true		application/json
timestamp	string	true	The time is converted to milliseconds, the number of seconds that have passed since January 1, 1970 (UTC). Only requests within 20 minutes are processed.	
nonce	string	true	10-digit random	
sign	string	true	Signature	
client-id	string	true	Open API account applied by user	

Query Parameters

None

Request Body Parameters

Parameter Name	Data Type	Required ?	Description	Default Value
skus	string[]	true	Item Code on GIGAB2B, max 200 Item Codes per request	

Example Request

```
{
  "skus": [
    ""
  ]
}
```

Response Parameters

Parameter Name	Data Type	Required ?	Description	Default Value
success	boolean	true	Whether the request is successful	
code	string	true	Error code. Both successful and failed requests will include this response.	
data	array	false	Response data	
sku	string	false	Item Code on GIGAB2B	
buyerInventoryInfo	object	false	Buyer-owned inventory information	
totalBuyerAvailableInventory	integer	false	Quantity of fully-paid inventory, excluding Buyer-locked and shared inventory.	
totalMarginInventory	integer	false	Quantity of Margin Agreement inventory with unpaid due amount	
totalFutureInventory	integer	false	Quantity of Future Goods Agreement inventory with unpaid due amount	
totalSharedInventory	integer	false	Quantity of available shared inventory, including the inventory from both Self-arranged Shipping and Drop Shipping accounts.	
totalSystemLockedInventory	integer	false	Quantity of inventory locked by the system	
totalBuyerLockedInventory	integer	false	Quantity of inventory locked by Buyer	
buyerInventoryDistribution	array	false	Warehouse distribution of Buyer's inventory	
warehouseCode	string	false	Warehouse code	
buyerAvailableInventory	integer	false	Quantity of fully-paid inventory, excluding Buyer-locked and shared inventory for specific warehouse	
marginInventory	integer	false	Quantity of Margin Agreement inventory with unpaid due amount for specific warehouse	
sharedInventory	integer	false	Quantity of available shared inventory, including the inventory from Self-arranged Shipping account only.	
systemLockedInventory	integer	false	Indicate the inventory already assigned to Shipments, blocked by RMA requests and inventory loss, cannot be used for specific warehouse	
buyerLockedInventory	integer	false	Indicate the inventory locked by Buyer, cannot be used during the locking period for specific warehouse. Buyer can click on the number on Inventory Management → Inventory Lockup page to open the Inventory Details window and then unlock the inventory.	
totalStorageFee	number	false	Total storage fees incurred as of yesterday, including the amount that has been paid already in debt statement.	
unpaidStorageFee	number	false	Total unpaid storage fee as of yesterday	
currency	string	false	The currency of Storage Fee	
sellerInventoryInfo	object	false	Seller inventory information	
sellerAvailableInventory	integer	false	Quantity of inventory available for purchase	
discountAvailableInventory	integer	false	Quantity available for discounted products during limited-time promotions	
sellerInventoryDistribution	array	false	Product inventory distribution. This field returns a value only for US/UK/DE/CAN Marketplace Self-arranged Shipping Buyers and US Marketplace Drop Shipping Buyers.	
warehouseCode	string	false	Warehouse code	
availableQtyMin	integer	false	Minimum inventory quantity requirement for purchase	
availableQtyMax	integer	false	Maximum inventory quantity available for purchase	
nextArrivalInventory	object	false	Expected arrival time for next incoming shipment, if available.	
nextArrivalBegin	string	false	Expected arrival time for next incoming shipment if available. nextArrivalBegin is the earliest estimated arrival time.	
nextArrivalEnd	string	false	Expected arrival time for next incoming shipment if available. nextArrivalEnd is the latest estimated arrival time.	
nextArrivalQtyMin	integer	false	The minimum quantity of the expected inventory for the next arrival	
nextArrivalQtyMax	integer	false	The maximum quantity of the expected inventory for the next arrival	
requestId	string	true	The unique identifier of the request.	
msg	string	false	Error message. The content may be blank for secondary errors.	
subMsg	string	false	Detailed error message description.	
recommend	string	false	Error Diagnostics URL
